The Activist Investing Annual Review 2014

January 27, 2014

The Activist Investing Annual Review 2014, published by Activist Insight in association with SRZ, covers the major trends in activist investing in the past year and features statistics on global activist campaigns.

SRZ partner Marc Weingarten and former SRZ attorney David E. Rosewater contributed expert analyses to the review, which also includes interviews and insights from other key players in the activism market and an analysis of activist-targeted stocks using Activist Insight's proprietary Follower Returns feature. The report analyzes activist hedge funds' strong performance in 2013 using Activist Insight's unique Activist Index, which is made up of 30 activist funds.

As counsel on many of the highest-profile activist matters in recent years, SRZ is the go-to firm for representing the interests of investors, shareholders and target companies alike. We advise activists and "occasional activists," as well as companies, boards of directors and shareholders, on a wide variety of corporate governance and control issues and activist and defensive strategies, from behind-the-scenes long-term partnerships with management to proxy contests and consent solicitations.
