## **SRZ Partners Author Chapter in *Securitizations: Legal and Regulatory Issues***

**November 2015**

SRZ partner and co-head of the firm's Structured Finance & Derivatives Group Boris Ziser and partner Thomas R. Weinberger co-authored the "Life Settlement Securitization" chapter in *Securitizations: Legal and Regulatory Issues*, published by Law Journal Press.

*Securitizations: Legal and Regulatory Issues* is a much-needed guide to one of the most strategically important areas of structured finance. Written by over two dozen experts with hands-on experience, this timely and insightful work explains the benefits — and risks — of securitization, and the legal, tax, accounting, and other issues involved. It includes detailed discussion of the assets that can be securitized, rating agency considerations, the legal structure of securitization transactions, tax consequences for issuers and investors, the effect of an issuer's bankruptcy, contractual restrictions, regulatory concerns, cross-border and future-flow transactions, financial guaranty insurance, insurance securitizations, and securitization issues unique to specific foreign countries.

For newcomers to the field, *Securitizations: Legal and Regulatory Issues* quickly brings you up to speed. For the experienced practitioner, it serves as an essential companion and reference as new techniques arise and new markets emerge. The latest edition of this leading treatise also features new analysis of the Volcker Rule considerations for covered bond investors and includes revised coverage of life settlement securitization.
