Extraterritorial Regulatory and Criminal Enforcement

The International Comparative Legal Guide to: Business Crime 2018

September 12, 2017

SRZ attorneys co-authored the “Extraterritorial Regulatory and Criminal Enforcement” chapter for *The International Comparative Legal Guide to: Business Crime 2018*. The chapter describes the international law principles that have traditionally limited enforcement to matters closely tied to a state’s territory, explains how changes in that law are challenging those norms, and discusses how companies can understand and adapt to emerging regimes.

This chapter appeared in the 2018 edition of *The International Comparative Legal Guide to: Business Crime*, published by Global Legal Group Ltd, London.

Practices

REGULATORY AND COMPLIANCE
