Schulte Roth & Zabel Denounces Anti-Semitism

June 2021

Schulte Roth & Zabel denounces anti-Semitism and stands with the Jewish community against the recent harassment and attacks against Jews. These horrific acts have no place in our society. It is incumbent on all of us to unequivocally condemn the recent attacks and threats against members of the Jewish community and Jewish schools, museums and synagogues. We recently joined with other law firm leaders in co-signing a letter publicly denouncing the current wave of anti-Semitism. As a firm, we will continue to use our resources to strengthen the legal protections of the Jewish community, work with organizations that provide victim support and address anti-Semitism, as we have throughout our firm's history, with our pro bono work and charitable contributions.
